Muhammad Harris Johanda
Web Developer

Summary

I am a motivated individual with a background in electrical engineering and have completed a full stack web development program. Carrying a combination of skills, including a strong foundation in engineering principles and proficiency in both front-end and back-end development, I am driven by enthusiasm to apply my creativity and technical proficiency to craft dynamic web applications that enhance user experiences. With a problem-solving mindset, attention to detail, and proficiency in HTML, CSS, JavaScript, React.js, Express, and Node.js, I am eager to leverage this diverse skill set as a full stack web developer with the goal of making a meaningful impact on projects.

Education

Purwadhika Digital Technology School, Jakarta
November 2022 – May 2023
